@ALYSOCIALS

Hello, I'm Aly!

I used to manage a Facebook page for a social media company. For a year, Canva was one of my content creation tools.

I enjoy creating and maintaining brand marketing strategies. Develop content strategies on social media platforms to manage a company's interactions with the public. When producing social media advertising, engage your imagination. Using analytics to assess social media campaigns, spotting consumer trends interactions, being adaptable and aware of social media trends, and designing digital campaigns to aid in the creation of an online community are all important.
